

I hereby certify that this correspondence is being deposited on October 31, 2002 with the United States Postal Service as first class mail in an envelope addressed to:

Commissioner for Patents, Washington, D.C. 20231

Justina S. Townsend

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re application of

Group Art Unit: 3728

Tracy E. Grim et. al.

Examiner: Marie Patterson

Title: **Footgear With Pressure Relief Zones**

Serial No.: 09/592,462

Filed: June 9, 2000

Commissioner of Patents
Washington, D.C. 20231

RECEIVED

NOV - 6 2002

TECHNOLOGY CENTER R3700

**AMENDMENT SUBMITTED WITH
REQUEST FOR CONTINUED EXAMINATION**

Sir:

In addition to the claims submitted with the amendment submitted by mail on September 6, 2002, please add the following claims:

50. Orthopaedic footgear with resilient support for the foot, comprising:

an outer sole;

an inner sole mounted in said footgear above said outer sole, said inner sole having a plurality of independently vertically movable resilient sections arranged in a grid pattern, said independently vertically movable sections having upper surfaces which together form an upper surface for engagement by the foot;

said resilient sections being directly adjacent one another to form said grid;

said upper surface of said sections being of soft resilient material and being directly exposed for direct engagement with the foot of the user or a sock or stocking on the foot of the user; and

said grid pattern of resilient sections constituting a multiplicity of sections that sway laterally independently of one another in response to forces applied by the foot, thereby reducing shear stresses on the bottom of a foot as the user walks along.
